

'Ready Mohali bus terminal by mid-October'

TNN Jul 19, 2011, 01.38am IST

MOHALI: a progress review meeting of Rs 500-crore first bus terminal cum commercial complex being constructed in the district was conducted on Monday.

Punjab deputy chief minister [Sukhbir Singh Badal](#) surveyed the 17-storey project and emphasized the need for making the bus terminal portion operational by mid-October.

He said the first-of-its-kind airconditioned project would ensure that passengers enjoy all facilities similar to those available at international airport.

He said, "The bus stand would have special arrangements for differently-abled people. It would have separate bus station for local, inter and intrastate buses and passenger transfer arrangement from one bus station to another bus station would be non-interfering and smooth."
